ECO SERENDIB VILLA & SPA

Private Estate Luxury

Pretend to Live Here

At Eco Serendib on St. John, voted one of ISLANDS Best Islands To Live On, you'll feel like this eight-suite villa is your own private estate for the week — because it is. The eco-friendly villa accepts only one reservation at a time and caters to your every need. Perched atop Point Rendezvous with iconic views over Fish Bay, this is where you dream about being all year.

Enjoy a Private Spa

What's better than a trip to the spa? Having a private spa all to yourself. The villa's full-service spa is for the exclusive use of guests and utilizes organic Sodashi products. Your only

decision is whether you want your treatment inside the spa or outside overlooking the Caribbean blues.

Have a Butler

Eco Serendib's list of luxuries even includes an optional butler and personal chef during your stay. So while you're getting a daily massage, your butler is setting up your dining room for your seed-to-plate dinner cooked by your own chef using produce and herbs grown in your onsite organic garden. And there are no dishes for you to do afterward.
